MAXIM

PARTY IN MY PANTS

Maxim

Unique to Maxim: Maxim Hygiene Products, is a medium size manufacturing and distributing company, not a faceless multi-national manufacturing giant. "We believe in and support quality in our products and services, particularly Personal Hygiene Products that offer true health and lifestyle benefits. We value honesty and integrity along with professionalism in all our dealings."

Maxim Hygiene* 39 Maple Street, Roslyn Heights * New York, NY. 11577-1941 * 888.95MAXIM * MaximHy.Com

Company Philosophy: Maxim's founders built the company and developed Maxim products with three main elements in mind? body, earth, and health. How can we take these very basic and essential components of life to their maximum level of efficiency and sustainability? This question has become our personal mantra in everything

we do. Each element alone is strong, but by combining them together in to one produ, we have met our maximum potential. **Body:** Each person's body is unique in its composition and form, but every body wants and needs to feel good. Our designs play a significant role in providing comfort and convenience for life's every day personal care needs. **Earth:** The Earth is our source of life and we've only got one. If we don't take care of it we might as well start saying goodbye to it. We like to try to breathe life in to every aspect of our product; from our eco-friendly packaging, to the use of biodegradable and toxin free materials we are always looking for ways to help keep our environment safe. **Health:** Health is the most influential element out of all three body, earth and health standards. Body and earth alone are strong components, however having a healthy body and earth is the strongest component in nurturing quality of life. As you read in detail about our standards on the following pages, you will see exactly how we keep the earth and body healthy. Our purple and blue lines of product were created to meet basic body, earth and health needs. We've improved these products further by introducing their healthiest counterparts, the green and white lines, which function according to the standards of organic and natural living.

Products: Organic Cotton Tampons, Sanitary Napkins, Pantliners and Cotton Balls.
